Hiroshima J. M. Sci.

CONTENTS

Vol. 26, No. 1, March, 1977

T. Mizonishi. Effects of external Na and Ca ion concentration of response of anterior byssal retractor muscle of mytilus edulis to acetylcholine application. ····· 1–8
K. Taguchi, M. D., Ph. D., T. Mochizuki, M. D., M. Matsumura, M. D. and K. Takamura, M. D.. Surgical consideration for preventing air embolism during open heart surgery. ····· 9–11
K. Matsumoto, D. Wizedol, M. Muta, S. Hayashidani, Y. Katsube and T. Ihara. Nine cases of adenocarcinoma of uterine cervix in our clinic. ····· 13–17
Y. Iwanaga, M. J. Santos and B. L. Blas. The determination of the oncomelania hupensis quadrasi population density using the banana leaf method in four municipalities of eastern leyte, philippines. ····· 19–27
Y. Iwanaga, M. J. Santos and B. L. Blas. Studies on the laboratory breeding and infectivity of oncomelania hupensis quadrasi. ····· 29–34
S. Matsumura, T. Onishi, K. Miyai, S. Mori, T. Uozumi and Y. Kumahara. Effect of metoclopramide on prolactin secretion in normal subjects. ····· 35–38
Y. Yamanaka and S. Kono. Effect of acute and chronic treatment with L-dopa on catecholamine turnover in the rat brain. ····· 39–44
O. Nishida, K. Muysers and U. Smidt. Determination of pulmonary parenchymal tissue volume and pulmonary capillary blood flow by a new partial rebreathing technique. ····· 45–52
M. Fukushige, M. Fujii, M. Hayashi and H. Nihira. Clinical studies on pain in the back or flank in urologic out-patients. ····· 53–58

Vol. 26, No. 2·3, September, 1977

A. Sumitani. Immunological studies of liver arginase in man and various kinds of vertebrates.
Part I : Microquantification of arginase enzyme in liver tissue by quantitative immunoelectrophoresis.
Part II : Immunological studies of human liver arginase. ····· 59–80
Y. Omura. Morphological and chromosome studies on the genital organs of intersex goats and bovine freemartins. ····· 81–102
T. Kato. A study on the development of the cat claw. ····· 103–126
H. Deguchi. Effects of fast neutron irradiation of the development of the mouse brain. ····· 127–147
G. S. Pant and N. Kamada. Chromosome aberrations in normal leukocytes induced by the plasma of exposed individuals. ····· 149–154
T. Hamada. Anterior teeth restoration in a patient with cerebral palsy. ····· 155–159
T. Hamada, K. Yamauchi, S. Yamada, K. Ito and T. Tabe. Roentgen-cephalometric analysis of open-bite in patients with progressive muscular dystrophy. ····· 161–165
S. Yamamoto, S. Ozasa and M. Maeda. Human skin anaphylaxis. Effect of cyclic AMP on the two stages of allergic histamine release from human skin, and colchicine-induced inhibition of cutaneous allergic histamine release. ····· 167–171
S. Yamamoto. Inhibition of histamine release by diisopropylfluorophosphate in human cutaneous anaphylaxis. ····· 173–175
K. Nagao. Type-C RNA virus and leukemogenesis: Lack of correlation between expression of endogenous, ecotropic murine leukemia virus and radiation leukemogenesis in mice. ····· 177–188
K. Nagao. Type-C RNA virus and leukemogenesis: Effect of thymectomy on leukemogenesis in rat adapted gross virus (RAGV) infected rats. ····· 189–194
M. Kawakami, C. Shigeta, H. Enzan, H. Takahashi and T. Ohkita. Diffusion chamber culture of human peripheral mononuclear cells in mice. ····· 195–204
H. Kawane, Y. Kodomari, T. Okamoto, T. Kuraoka, T. Hiramoto, N. Sewake, T. Yoshimi, M. Takano, M. Kambe, O. Nishida and Y. Nishimoto. Studies on fatal cases of chronic pulmonary emphysema with special reference to pulmonary function. ····· 205–218
M. Hiura and H. Fujita. An electron microscopic observations on the mesonephric tubular structure in the mouse embryo ovary. ····· 219–225

Vol. 26, No. 4, December, 1977

F. Araki and Y. Sugihara. The cytocidal effects of WOG solution (a mixture of wheat straw hemicellulose B, ovoglycopeptide, and glucose) on human cancer cells in vitro. ····227–231
M. Ota, J. Isobe, Y. Tsuji, T. Kuramoto and T. Hoshita. Metabolism of bile acids IV. Absorption, distribution, excretion, and metabolism of orally administered ursodeoxycholic acid in rats. ····233–251
M. Ota, N. Matsumoto, T. Kuramoto and T. Hoshita. Metabolism of bile acids V. Metabolism of ursodeoxycholic acid in rhesus monkey.····253–262
Y. Shiba and Y. Kanno. Influence of serum on energy requirement for cell adhesion to glass substratum. ····263–267
H. Fukuchi, S. Tsukiai, M. Kumagai and T. Kitaura. Studies on oral hypoglycemia agents. —Blood levels and hypoglycemic effects of sulfonylurea compounds—. ····269–276
Y. Aratani, O. Nishida, H. Kawane, Y. Kodomari, T. Okamoto, T. Hiramoto, K. Arita, M. Miyanishi and Y. Nishimoto. Closing volume "phase IV volume" influenced by physical exercise. ····277–281
N. Okamoto, Y. Murakami, I. Baba, S. Watari and D. Morioka. H-reflex of the upper extremities in cervical myelopathy. ····283–289
H. Takahara, K. Ohama and A. Fujiwara. Cytogenetic study in early spontaneous abortion.····291–296
C. Lai and A. Fujiwara. Studies on seromucoid of patients with carcinoma of the uterine cervix. ····297–301
M. Yamashita and A. Fujiwara. Analysis of effects of radiation therapy on the cervical cancer by local responce.····303–309
T. Sakano, T. Yoshimitsu, A. Tanabe, T. Tanaka, Y. Kobayashi, T. Usui and K. Takano. Cerebral gigantism: A report of two cases with elevated serum somatomedin a levels and a review of the Japanese literature. ····311–319
K. Takanaka, T. Usui and P. J. O'Brien. NAD(P)H oxidase levels of intact leukocytes of CGD (chronic granulomatous disease). ····321–324
